

Treat public charter school employees like other public employees

The **Problem**

Unlike school district employees, public charter school employees are not defined as public employees for purposes of negotiating employment terms.

The **Solution**

Change the law to define public charter school employees as public employees.

SB 2293 / HB 2487 will

- ✓ Require public charter school board members be defined as officials of a political subdivision and that school employees are defined as public employees for purposes of negotiating employment terms, just like ISDs.
